

Efficiency in movement

- **Manual pallet truck with build-in scale:** Designed to offer maximum functionality and efficiency in any area of work, this tool not only allows to transport the pallets easily, but also weighs them immediately, eliminating the necessity to move the load to a fixed scale.
- **Weighing and lifting in one step:** TCamel Y streamlines operations by combining lifting loads with a precise weighing system, facilitating the logistics and saving precious time in the warehouse.
- **Rechargeable Li-Ion battery:** Its long-lasting battery allows it to work for hours without interruption, while its easy fast recharge assures that the pallet truck is ready for any task.
- **High contrast LED display:** Equipped with a LED display, thanks to which the operator can visualize the weighing results clearly and precisely, even in low light conditions.
- **Instant weighing memory function (Hold):** Thanks to this function, it is possible to keep the weighing value on display for its further revisiton, without the necessity to stop operations.
- **Accumulation and totalization of weighings:** The system allow to register multiple weighings and accumulate the results, offering a complete vision of the total of the load handled.

Simplify the workflows in the warehouse

Designed to move in an agile way, transporting the load to its destination while weighing it simultaneously. Whether its before or after its transport, the weighing information is always available, without the necessity for another dedicated scale.

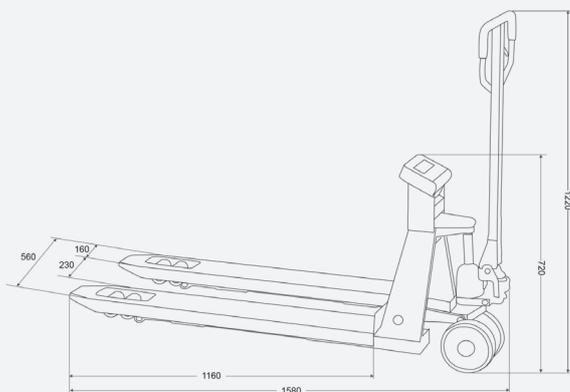

Productivity anywhere

Designed for dynamic environments, where speed and precision are essential. Its compact design and ease of use allow it to operate in any corner of the warehouse, providing fast results and optimizing work time. It is a perfect solution for those who look for versatile equipment which speeds up the logistic processes, improving productivity and reducing downtime.

► **TECNICAL DATA**

Model	TCamel Y 2T
Reference	10048
Capacity	2.000 kg
Resolution	1 kg
Weighing units	kg
Operating temperature	-0° C / +40° C
Power supply	2x Li-Ion battery 3,7V - 4000mA/H
Battery life	48h of continuous use
Display	LED
Segments	4 digits
Digit height	2,54 mm
Indicator material	ABS
Structure material	Steel
Wheel material	Polyurethane
Fork dimensions	1160 x 560 mm
Fork height	Min: 85 mm / Max: 205 mm
External dimensions	1580 x 560 x 1220 mm
Packaging dimensions	1550 x 580 x 445 mm
Total net weight	87 kg
Total weight incl. packaging	99 kg
